

Helix Coffee Table is a new type of system that revolutionizes the way furniture is designed, manufactured, sold, and distributed. The wireframe design is adaptable to various types of size and design. 24 unique joints are 3D printed on demand, which has infinite possibilities.

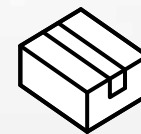

# HELIX COFFEE TABLE

**ADAPTABLE  
DESIGN**

**3D PRINTABLE  
AT HOME**

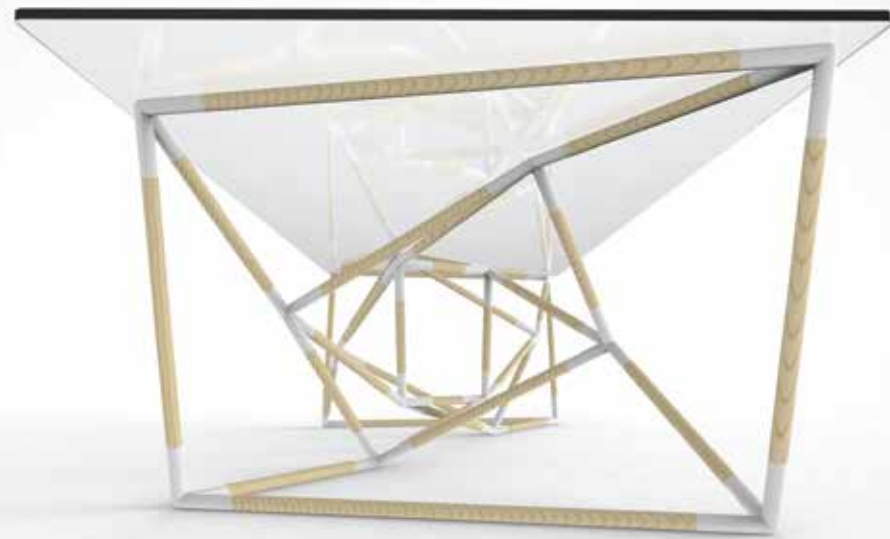

**EFFICIENT  
PACKING**

**DYNAMIC  
DESIGN**

**EASY  
ASSEMBLY**

**DYNAMIC HELIX SPIRAL DESIGN**

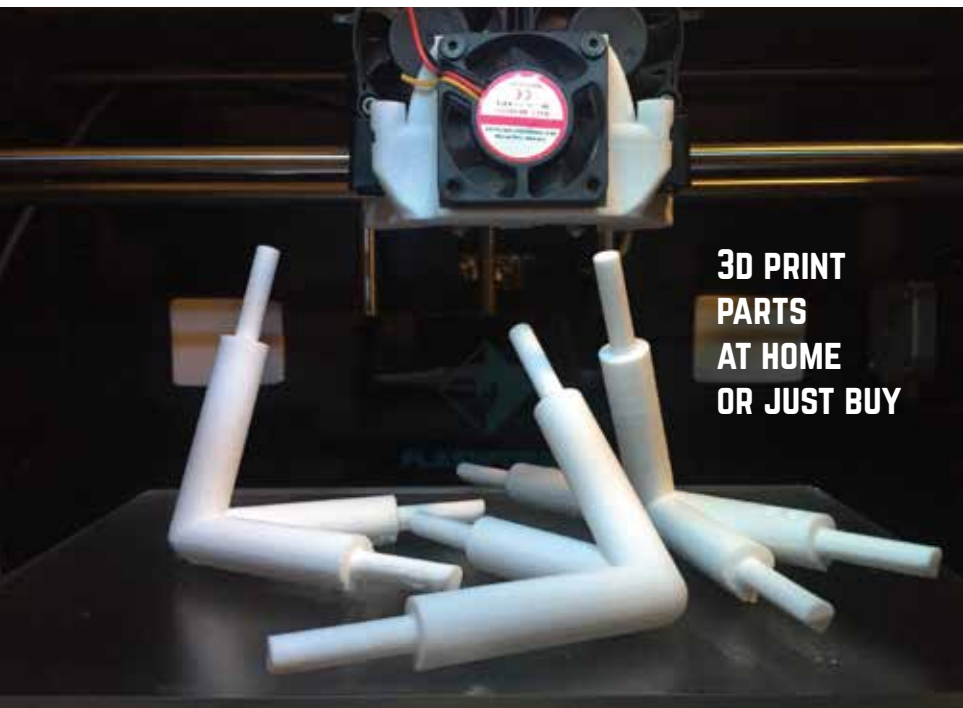

Joints, bars, and glass top can be manufactured and sold, while the consumer can purchase data to 3D print joints themselves. This particular table is inspired by the helix spiral, and designed using parametric software to create a dynamic environment around the object.

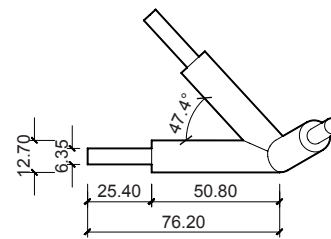

**ADAPTABLE DESIGN**

**24 UNIQUE JOINTS**

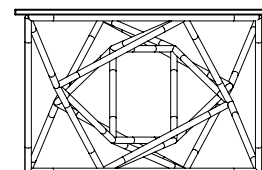

**EFFICIENT PACKING**  
(Glass distributed locally)

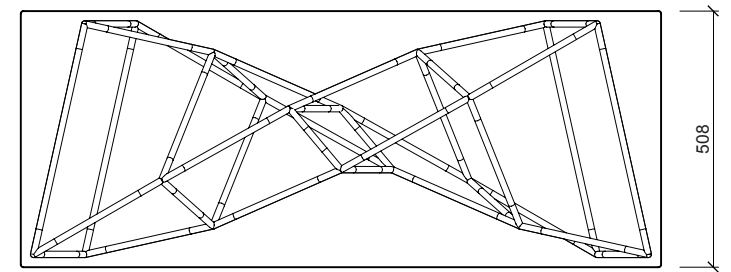

**3D PRINT  
PARTS  
AT HOME  
OR JUST BUY**
