

TRIPLE BEAM PIZZA OUTDOOR DINING PAVILION

:: EXPLODED AXO DIAGRAM

:: SITE

Highland Park is a historic, suburban neighborhood with an urban inclination. It is currently an up and coming diverse community where variety of small businesses, restaurants and coffee shops are neighboring. Triple Beam Pizza is located in the heart of this community and is placed in a small building structure accompanied with other diner and wine bar. It is a popular spot where many populations visit casually to dine and socialize.

5918 N Figueroa Street, Los Angeles, CA 90042

:: OUTDOOR DINING SPACE

Once the visitors come out of the building, they instantly engage with the outdoor pavilion. It is an inviting dining space, designed for people to sit and enjoy their food and drinks. The space feels open and bright with natural light, yet some might find it compact to some extent due to its placement next to the parking lot. The wooden poles and high bar tables act as dividing elements that differentiate the dining area from the parking space and enhance dining experience. The rhythmically flowing design of the roof plays with light and shadow, adding a dynamic visual component to the space.

:: INSPIRATION AND CONCEPT

Nature and Mountainside Cottage
The main objective of the design is to create a nature-infused relaxing space where people can feel rested and recharged while eating and socializing.

:: FURNITURES

The furnitures and fixtures are modern and minimal. They add compelling details to the space with natural tones and textures that enhance the atmosphere and the overall outdoor experience.

Pendant Light Low Table High Bar Stool Wall Mounted Light

:: MATERIALS

The minimal appearance of each materials brings natural tone and textures to the space. The use of the contrasting materials, such as panelled wood and cast steel generate a balance in the environment, giving more depth and layers to the space. Also, all the materials create an uniformity with the materials used for the interior space of the building.

Walnut Laminated Timber Stainless Steel Cast Steel
