- A place where you´r not alone

The crime rate in Los Angeles is considerably higher than the national average across all communities in America from the largest to the smallest, although at 34 crimes per one thousand residents, it is not among the communities with the very highest crime rate. **The chance of becoming a victim of either violent or property crime in Los Angeles is 1 in 30. Based on FBI crime data,** Los Angeles is not one of the safest communities in America. Relative to California, Los Angeles has a crime rate that is higher than 84% of the state's cities and towns of all sizes.

For Los Angeles, we found that the violent crime rate is one of the highest in the nation, across communities of all sizes (both large and small). **Violent offenses tracked included rape, murder and non-negligent manslaughter, armed robbery, and aggravated assault, including assault with a deadly weapon**. According to NeighborhoodScout's analysis of FBI reported crime data, your chance of becoming a victim of one of these crimes in Los Angeles is one in 130.
