

Water Ripple  
Lu Chen

When I need to calm down I would I like to listen rains sounds, specailly heavy rain sounds.I feel safe.

I like to light on my favorite woody flavor candle before go to bed or when I want to relax.

# Water ripple candle warmer

It is a lighting.  
It is a candle warmer.

Fill our home with a DELIGHTFUL AROMA without the hazards of a flame and smoke.

Warming bulb melts the candle form from the bottom, releasing a lively, clean fragrance that lasts twice as long as burning.

Choose our candle (16oz) inside and enjoy without smoke, or an open flame.
